

Company Profile

Triton Chemical Manufacturing Company Limited (Triton Systems) is an established supplier of all types of structural waterproofing systems (Types A, B and C as defined in BS 8102 2009). Key systems include BBA approved TT Admix, used widely in the construction of watertight concrete structures such as commercial and domestic basements, car parks and swimming pools and a range of BBA approved cavity drain membranes. Triton also supplies flooring systems, ground gas barriers, flood prevention systems, anti-condensation products and a range of traditional timber preservation and DPC products to a network of approved contractors. Triton is a BS EN ISO Quality Assured Company.

At the end of 2012 the company was one of the first in the UK construction industry to have its products listed as BIM objects on the new NBS National BIM Library. Where appropriate, all Triton's products carry the CE mark.

Triton's technical team offers a design and specification service, on-site and classroom based training courses and full technical support to its customers. The company is also a RIBA approved CPD provider and a member of the RIBA NBS Plus service for specifiers. Through its website www.tritonsystems.co.uk, contractors and specifiers can also access information about all of Triton's products, including data sheets, product literature and CAD and other detail drawings. Further drawings and project specific advice are available on request.

Triton is an active member of the Property Care Association, the Basement Information Centre and the Basement Waterproofing Association.

Recent Major Projects

Kingsgate House, Victoria Street, London – 12,500 m² Platon cavity drain membrane supplied for 5-storey commercial basement.

Bishops Avenue, Hampstead, London – 2,100 m³ concrete made watertight by the addition of TT Admix for the construction of new 3-storey domestic basement below listed dwelling.

Hans Place, Knightsbridge, London – TT Admix and Platon membranes specified to form twin waterproofing system for 3-storey basement comprising car park, plant room and swimming pool.

Cork City Centre, ROI – a rolling programme of riverside, retail developments where all of Triton's structural waterproofing systems continue to be specified.

Company Structure

Triton's technical team is widely experienced in the use of all types of proprietary waterproofing systems, current waterproofing regulations and associated risk assessments.

Commercial Manager: Alan Sleigh: Tel 07810 885730

Concrete specialist, Alan Sleigh, joined Triton as Commercial Manager in 2017 after many years of technical and commercial experience with leading manufacturers of specialist concrete products. Alan is a Regional Chairman of the Concrete Society.

UK Field Based Staff (Areas and Experience):

Structural Waterproofing Specialist: Mike Dunn Tel: 07795 478621

Mike Dunn, CSSW, CSRT, is a structural waterproofing specialist. His role at Triton is to support and grow specification sales. Prior to joining Triton he worked as an installing contractor and is therefore able to provide effective and practical solutions to architects and surveyors, as well as training and technical back up to contractors during installation.

Technical Manager: Steve Tomlinson: Tel: 07771 922131

Concrete waterproofing specialist, Steve Tomlinson, has 34 years of construction industry experience. He joined Triton in 2017 to support the specification of Triton's watertight concrete system.

Regional Sales Manager (North): Malcolm Cook Tel: 07971 803763

Area: Northern England, Northern Ireland and ROI.

Malcolm Cook has been involved in the industry for nearly 40 years and was one of the first individuals to appreciate the potential for cavity drain systems in the UK. He has worked for Triton for nearly 20 years and holds the following qualifications – CSSW, CRDS, Hon A Inst SSE.

Regional Sales Manager (Scotland): Michael Erskine Tel: 07824 874636

Area: Scotland

Michael Erskine joined Triton in July 2017 to support the sales and specification of Triton products across all of Scotland. He is a qualified structural waterproofing surveyor (CSSW).

Regional Sales Manager (Central): Graham Hughes Tel: 07768 350776

Area: Shropshire, Warwickshire, Cheshire, North Wales, Bedfordshire, Northamptonshire, Staffordshire, Herefordshire, Worcestershire, Leicestershire, Derbyshire, Norfolk, Suffolk and Berkshire.

Graham Hughes has nearly 25 years of experience with Triton and has been involved in the industry for more than 30 years. He is a qualified remedial treatments (CSRT) and structural waterproofing (CSSW) surveyor.

Technical Sales Manager (Central): Ian Hughes Tel: 07825 885026

Area: North Wales, Cheshire, Greater Manchester, Merseyside.

Ian Hughes joined Triton in 2016 as a Technical Sales Manager based in the Midlands with 8 years of construction industry experience with a building products distributor. Prior to that he studied IT and computing.

Regional Sales Manager (London): Steve West Tel: 07836 605552

Area: SE London, Essex, Kent, Surrey, Sussex and Hampshire

Steve West has been with Triton for more than 30 years and is highly experienced in basement waterproofing and remedial treatments. He is also the company's wall tie specialist and holds a Diploma in Wall Tie Technology.

Regional Sales Manager (South West): Dave Whichello Tel: 07768 350779

Area: Wiltshire, South Wales, Gloucestershire, Avon, Dorset, Devon, Cornwall and Somerset.

Salcombe based Dave Whichello is a Mechanical Engineer and has worked for Triton for 16 years. He has been involved in the industry for many more years as a supplier and a contractor. He is a qualified structural waterproofing surveyor (CSSW).
